

ABOUT US

NE Iowa's Allamakee County is best known throughout the nation for being the #1 County in Iowa for Boone & Crocket record book entries. We are based in the beautiful bluffs of the Mississippi River near the Yellow River Forest and includes some large tracts of land near the Upper Iowa River in the New Albin and Dorchester areas as well... right in the heart of monster buck country.

NE Iowa's Best Deer Hunting!

The topography of the properties varies from rolling hardwood ridges and scenic bluffs to brushy creek bottoms. There are thousands of apple trees and many food plots including turnips, brassicas, radish, rye, barley, corn, soybeans, and sorghum — all spread about the property to grow and hold big bucks. Numerous sanctuaries have been established to protect and hold mature bucks. There are also numerous water sources and over 50 bow hunting stand locations as well.

All of the properties were laid out under the guidance of professional deer habitat specialists. Then through careful logging and installation of meticulously-prepared and planted food plots, a trophy whitetail Mecca was created.

LOCATION

Big ridges, steep ravines, brushy points, ponds, strategic food plots and open crop land create a magnet-like paradise for mature bucks.

The proof of our property's holding power for these deer is evidenced by the numerous trail camera pictures and recent harvests.
